Gathering data is not a concern for most financial institutions. Making sense of it is.

To solve this challenge, Vericast

[Read More](#)

announced the debut of its Market Intelligence Platform, a financial industry-first data visualization dashboard that delivers real-time insights to enable smarter marketing decisions and optimize spend...

The Case for Investing with Tight Liquidity and an Inverted Yield Curve

[Read More](#)

Think about interest rates the last 10 years before 2022. The world spent almost the entire 2010s decade in a zero or near-zero rate environment. Japan even had negative rates for the better part of that span, and only now have they started increasing rates.

Velocity Solutions Executive Summit Set For March 2023

[Read More](#)

Imagine, if you will, a financial institution that meets and even exceeds the seemingly impossible definition of "optimal" to all of its stakeholders: the board, the regulators, the staff, the local business community and the account holders – all of whom have different expectations and measures of success.
